Barangay San Antonio Health Center
Pasig City

Subject: Request for Short Interviews with Health Center Staff and Officials, October 12–23, 2026

Dear Ms. Barcenas,

Thank you for your warm help during our first visit. We are the student team from the University of Asia and the Pacific studying how the Barangay San Antonio Health Center works. Our goal is to give the center a clear plan, or roadmap, for improving its daily work.

In the first interview, we learned a lot about patient records and reports. We now want to understand **the whole health department**: patient care, medicines and supplies, records, reports, community outreach, staff and training, equipment, and budget. To do this, we would like to hold **short interviews of about 25 minutes each** with the people listed below.

- **Hon. Raymond Thomas U. Lising**, Punong Barangay
- **Hon. Rachel Rustia**, Kagawad, Chair of the Committee on Health
- **Dr. Glynnis Lynn U. Bonilla**, Medical Officer IV
- **Ms. Nita N. Hardman, RN**, Rural Health Nurse
- **Ms. Mafe B. Abong, RM**, Rural Health Midwife
- **Dr. Joseph P. Magpali, DMD**, Rural Health Dentist (and any other dentist on staff)
- **Mr. Christian Jay G. Vasquez, RND**, Nutritionist-Dietitian, and **Ms. Mary Anne M. Verches**, Barangay Nutrition Scholar
- **Ms. Janneth D. Correa**, OIC Pasig Health Aide, and one Barangay Health Worker
- **Mr. Tito F. Reyes**, IT Officer / Medical Encoder, with the Barangay IT team
- **The Barangay Treasurer** or finance staff

We hope to start as early as **Monday, October 12** and finish with a short presentation of our findings on **Friday, October 23**. To avoid disturbing patient care, we have kept the meetings short and combined topics where possible, for a total of about 12 sessions. The attached schedule shows a **morning and an afternoon option** for each session. Please feel free to move any slot to fit the staff's duties. Since Kapitan Lising and Kagawad Rustia are available Monday to Thursday only, their meetings are set on those days.

We kindly ask for your help in checking the schedule with each person and confirming the final times using the form on the last page. We will not collect any patient names or records. Your guidance will help us make sure our recommendations fit the real needs of the health center.

Thank you very much for your time and support.

Respectfully yours,

Sendin Halim
